FESHM 6010 – Fire Protection program  
FESHM 6020.4 – Concepts of Egress

---

FESHM chapter 6016 has been updated to include more detail on what information should be included on hazard maps and how it should be entered.

FESHM 6010 and 6020.4 were updated to reflect current responsibilities and to come into line with current regulations.

All three chapters have gone through the labwide review process and all comments have been addressed. They are ready for your review and approval.

The chapters have been sent to you and Lisa Vega electronically. If paper copies are required, you may either print them out or contact Lisa and she will provide them to you.

Please return this signature page to T.J. Sarlina at MS 119 after Directorate approval.
